

not stackable

- inner cartridge contains product , can make it rotate around blocks so you can create different combinations of animals by twisting the blocks

Make tiny toys of the slurp farm animals and put them at the bottom of the product so the user has to empty the powder to see which animal they have got each time and they can keep the animal

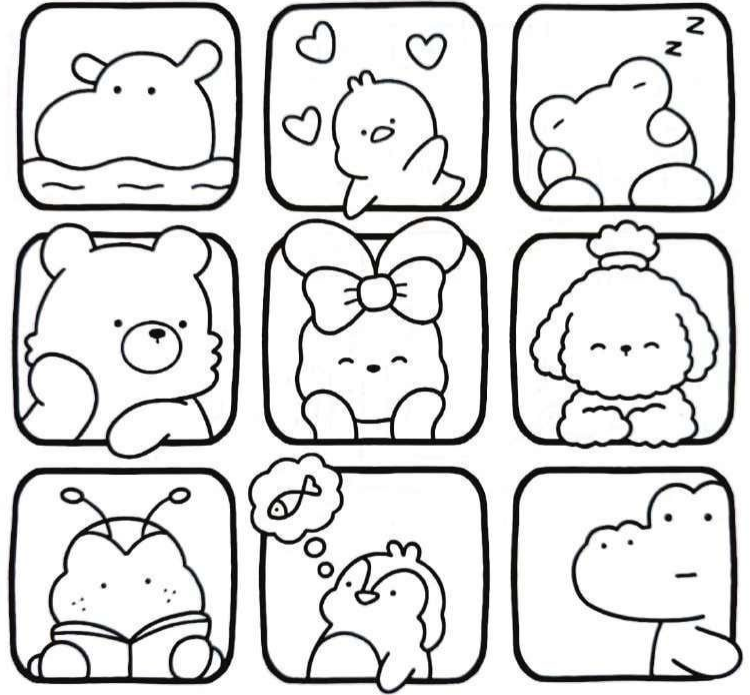

Tiny story books attached inside

Colouring sheet and a crayon

slurp and paint like a sip
and paint

**Animal origami
kit(mini) inside
each- one origami
per pack**

Seeds inside the tin to
teach kids
sustainability along
with making them eat
sustainable, they can
grow the plant in that
tin only- say smtg like
milk helps u grow just
like you can help your
little plant buddy grow

add the origami kit or collectible cards or tiny toys in the upper lid

sand bucket, keep the spoon like a mini
shovel ...so taking the milkshake mix is like
digging sand

Unique collectible spoons

Have refillable tin options
So once the drink mix is done , customers can
purchase refills and put it in the tin like boost
powder or smtg
